MEMBER OF

Car's Interior Disinfection and Air Purification Services

Using an environmentally-friendly and low-carbon nano-biodegradation formula, the machine can generate atomization to disinfect and deodorize car's interior including all composite materials such as disks, keyboards, control panels, and synthetic leather so that most bacteria, viruses and microorganisms can be destroyed in a short time. The atomization process can kill various bacteria, molds, viruses, insects and their eggs with obvious effects. Besides, the SPA process can purify the air and generate ozone, which can eliminate bacteria and molds, decompose chemical substances and remove odors in the air.

Members' Trial Offer \$180 per time in person (list price \$380)

With one-time FREE vacuum cleaning of car's interior (list price \$150) during promotion period

On-site service is available at a price of \$380 (provide 220V power supply and additional charges for the two-way bridge, tunnel and parking fee for our engineering vehicle.)

Effectiveness of Thorough Disinfection and Air Purification of Car's Interior

- Disinfect the entire car's interior
- Disinfect and remove bacteria on surfaces of all objects
